

CARLISLE MUDLONG

WEB DEVELOPER

0450528227 | Adelaide, SA | salotspread@gmail.com | devmud96.github.io/carlmud

Objective

To secure a web developer position in a dynamic and innovative organization where I can apply my technical and creative skills to build and maintain responsive, user-friendly, and visually engaging websites.

Skills & abilities

- Proficient in a range of programming languages such as Javascript, PHP, C# and Python
- Experience in developing and maintaining responsive, user-friendly, and visually appealing websites using modern web development frameworks and tools such as React and Bootstrap; currently learning backend development with Node.js to build full-stack applications.

Experience

LUMIFY LEARN

Casual Student | March 2024 – June 2025

- Develop responsive, WCAG compliant and visually appealing websites using programming languages.
- Assist with user account management through Active Directory, including password resets, user/group creation, and access permissions.
- Provide IT support by managing and resolving tickets using a helpdesk system, ensuring timely follow-ups and documentation of issues.
- Troubleshoot hardware and software problems, escalating complex issues when needed.

INGHAMS ENTERPRISES

Workforce Planning Assistant | October 2021 - ongoing

- Analyse current workforce data to identify trends, gaps, and future staffing needs.
- Collaborate with HR and department leads to forecast headcount requirements based on business objectives.
- Data cleaning and preparation to ensure accuracy, consistency, and usability of datasets for analysis and reporting.
- Develop and maintain workforce planning models and dashboards.
- Monitor workforce metrics such as attrition, absenteeism, and productivity.
- Provide insights and reports to leadership to inform decision-making.
- Coordinate with recruitment teams to prioritize hiring needs.
- Participate in organizational change projects (e.g., restructures, mergers) with a focus on workforce impact.

Education

TOI-OHOMAI INSTITUTE OF TECHNOLOGY

Rotorua, NZ | Bachelor of Applied Information Technology

Comprehensive studies in computing across three years, covering core areas such as programming, database administration, networking, and web development. Gained practical experience through projects, application testing, and interface design, with a strong emphasis on problem-solving and software development methodologies.

Communication

Skilled and experienced in communicating with clients, stakeholders, and cross-functional teams to ensure successful project outcomes.
